

Interactive Distributed Multimedia Systems (IDMS) and Protocols for Multimedia Systems (PROMS) have been two successful series of international events bringing together researchers, developers and practitioners from academia and industry in all areas of multimedia systems. These two workshops successfully merged in 2003 and now constitute the MIPS workshop. After the outstanding MIPS 2003 workshop, organized in Naples, Italy, by Giorgio Ventre and Roberto Canonico, from the University of Naples Federico II, MIPS 2004 moved to Grenoble, France. Following the great tradition, MIPS 2004 was intended to contribute to scientific, strategic and practical advances in the area of distributed multimedia applications, protocols and intelligent management tools, with emphasis on their provision over novel network architectures. This is undoubtedly a rather broad area, which is confirmed by the large range of topics that were addressed in the submitted (and accepted) papers. This year the Call for Papers attracted 74 submissions, essentially from Europe and Asia, plus a few contributions from North America, the Middle East, and Africa, for a total of 20 countries. We would like to express our warmest gratitude to all the authors, without whom organizing this event would have been impossible! Thanks to the outstanding work of the Program Committee and the additional reviewers, 20 full-sized papers and 5 additional short papers were finally accepted, which was not an easy task. Like MIPS 2003, MIPS 2004 remained a highly selective event (33% acceptance ratio, including the short papers) which is the best warrant of a good program quality.

Combining Paid Work and Family Care: Policies and Experiences in International Perspective, Killer Mushrooms Ate My Gran, The Epic History of Biology, Poland Map - Auschwitz Birkenau Camp by Unknown (2003-05-04), Correspondence of Princess Lieven and Earl Grey Volume 1, Critical Theory, Paragon Issues in Philosophy, Validation, Verification and Test of Knowledge-based Systems (Wiley Professional Computing),

All are very like the Interactive Multimedia and Next Generation Networks: Second International Workshop on Multimedia Interactive Protocols and Systems, MIPS 2004, ... (Lecture Notes in Computer Science) book. Our boy friend Madeline Black placed his collection of books to me. Maybe you interest a book, visitor should not post this file at my site, all of files of pdf in nomadworldcopa.com placed at third party blog. If you like full copy of a book, visitor can buy this hard copy in book store, but if you want a preview, this is a web you find. Happy download Interactive Multimedia and Next Generation Networks: Second International Workshop on Multimedia Interactive Protocols and Systems, MIPS 2004, ... (Lecture Notes in Computer Science) for free!
