

If you have a desire--or need--to publish in the professional literature, including nursing, then this is the book for you. Dr. Nicoll has developed a systematic process to guide you through the steps of preparing a manuscript suitable for publication in an academic journal. The process begins with the initial idea, how to craft that into a suitable topic, then moves to selecting an appropriate journal, developing a detailed outline, and writing the first draft. Exercises and worksheets for each step of the process are included. Dr. Nicoll has developed the Manuscript Success process based on her work as an editor assisting clients through her business, Maine Desk, and writing retreats she has led for the National League for Nursing and the Department of Clinical Nursing Science, at the University Hospital, Basel, Switzerland. The book is designed to be a standalone resource for aspiring authors but can also be used as an adjunct to professional manuscript coaching that Dr. Nicoll offers through her business, Maine Desk. Details on the latter can be found in the book. About the Author: Leslie H. Nicoll, PhD, MBA, RN is a nurse, wife, and mother.
